BOOK SYNOPSIS

On a muggy September day in 1959, North Carolina governor Luther Hodges set off the first charge of dynamite for the Cowans Ford Dam project. The dam channeled Catawba River waters into the largest lake in North Carolina: Lake Norman. The project was the culmination of James Buchanan Dukes dream of an electrified South and the beginning of the regions future. Over the years, the area around Lake Norman transformed from a countryside of cornstalks and cattle fields to an elite suburb full of luxurious subdivisions and thirty-five-foot sailboats. Journalist and historian Chuck McShane traces the triumphs and troubles of Lake Norman from the regions colonial beginnings to its modern incarnation.
