BOOK SYNOPSIS

A US Special Forces operator and veteran of the Iraq and Afghanistan wars, Richard Daniels is weary of serving government officials. Ensnared deep in the Florida Everglades, Daniels flies out of his own base of operations, rescuing wealthy refugees from dangerous situations then using the funds to extract unfortunates facing the same dangers. When two shadowy government-types attempt to hire Daniels and his team, Daniels flatly refuses. Then his seaplane is impounded, a federal warrant is issued for his arrest, and Deeno, an honorary team member with Downs Syndrome, is detained on federal charges. Daniels mind is changed. His new mission: In exchange for Deeno's freedom, hunt down and return "Bio", a genetically enhanced soldier gone rogue. Simple enough; Bio is already a proven killer. But when Daniels finds the diary of the last man Bio killed... plans change. THE REMNANTS OF WAR, in series order The Last Operation The Doppelganger Protocol The Devils Eye Twilight of Demons
